

[Secure Your Future With your own Enagic Home Business](#)

Welcome to my Kangen Water information, you'll be glad you spent a few minutes here.

I am ***Bruce Douglas***, an **independent Enagic dealer** based in Aurora, Colorado. I work in and around the Denver Metro area.

An independent Enagic alkaline water home business is perfect for a busy Colorado lifestyle. It provides freedom, flexibility, and significant income.

This is definitely the health and wellness opportunity for businesspeople who understand the value of alkaline, restructured water.

With **Enagic Kangen Water**, you too can create a **Health and Wealth-building asset** that can provide **long-term security in a non-MLM environment.**

The [Enagic opportunity](#) is about healthy water, environmental responsibility and Financial Success.

Enagic has been manufacturing high-quality water ionizers and purifiers since 1974 and there is a solid science behind what Kangen Water has to offer. Many Area residents have discovered Kangen healthy pH water but the Colorado health and wellness market is wide open.

Enagic provides a long-term career opportunity for committed entrepreneurs who know and believe that alkaline water can support optimum health. After all, we can't cheat physics.

Many families today are looking to improve or enhance their financial situation? I joined Enagic USA in October 2009, and believe it to be THE BEST move ever in a plan for the future. With no double-speak of PV BV MV or GV It won't take long to understand the unique Patented referral plan of Enagic. Simple and straight forward.

If you have or are considering a **home business opportunity**, I invite you to take a serious look and investigate Enagic USA and the Kangen healthy water machine. With a 37 year History, hospital certification in Japan AND the only **"Patented"** referral commission plan, this business is worth your time and effort to Discover and Experience.
