

## [Top Business Of The Century In Denver](#)

### **“What is the Colorado business of the 21st Century?” [Network Marketing!](#)**

Bestselling author (“Rich Dad, Poor Dad,” “Cashflow Quadrant”) and wealth-building expert Robert Kiyosaki’s latest book is called “The Business of the 21st Century.” In it, Kiyosaki makes the case that MLMs are the business of the century because they **create genuine wealth**.

Kiyosaki points out that wealth and money are not the same thing. **“Money is what you earn; wealth is what you build.”** The Denver people who understand the difference between money and wealth work to build assets, not merely earn income. A Denver business becomes an asset when it generates income even when the owner is not working.

**A network marketing business is an asset, not just a job. Assets create wealth for entrepreneurs and small business owners.**

I am Bruce Douglas. I invite you to [create your own wealth-building asset](#) by joining my network marketing team sharing the SD-501 in our area and within the online marketplace.

Think about it: Network marketing turns something you already have (a network) into a money making asset. Here is the formula for success:

**Your network + a quality product (SD-501) + your time, effort, and skills + my support and training = an income-generating asset!**

If you have an entrepreneur spirit but your current venture is not generating passive income, I would invite you to [learn more about the SD-501 wealth-building opportunity](#).
